## SQUALO 1000 PORTABLE HORIZONTAL SHEAR

### Technical Data

• Length of the pressing-plate basin:	3200 mm
• Length of the machine:	6370 mm
• Width of the machine:	2200 mm
• Height of the machine:	2700 mm
• Weight:	22 tons

### Working Cycle

• Automatic – a complete cutting cycle	45 seconds
--	------------

### Cutting Length

• Horizontal cut (fixed)	400 mm
--------------------------	--------

### Productivity

• Mixed light scrap	up to 10 tons/hour
• Diesel per hour consumption (under normal working conditions)	10 litres /hour
• Max Cutting thickness & shapes	200 mm (round) / 175 mm (squared)

### Maintenance

• Greasing (automatic) daily	
• Standard service for a diesel engine	
• 6 cylinder diesel engine with turbo & inter-cooler	
• Double and automatic greasing

## Spare Parts

<ul style="list-style-type: none"><li>• Blades (each blade has four edges for cutting)</li></ul>	300 working hours edge must be rotated
<ul style="list-style-type: none"><li>• Blade Life</li></ul>	300 hours per cutting edge X 4 edges = 1200 hrs. Can be used twice adding a set of spacers.

## Engine

Deutz (Diesel)  
Electro Adda or Marathon (Electric)

## Cost Savings

- Low investment & operating costs
- Transportation & freight savings
- Quickly condenses oversized materials
- Low fuel consumption
- Reduced labour costs
- Unmatchable reliability

## Greater Mobility and Versatility

- sets up in minutes
- single operator
- no permits or concrete pad required
- powerful cutting shear despite reduced overall dimensions

**THE SQUALO 1000 IS MORE POWERFUL AND FLEXIBLE IN COMPARISON TO THE EXCAVATOR MOUNTED SHEARS...BUT WITH A LOWER RUNNING COST!**
